

Delta Plus Group finalises the sale of its subsidiary Nueva Sibol (Spain)

Delta Plus Group, a major player in the Personal Protective Equipment (PPE) market, announces the sale of 100% of its subsidiary Nueva Sibol SLU to the Italian group Spasciani S.p.A.

Acquired by Delta Plus Group in March 2006, Nueva Sibol, a company based in Zamudio, Bilbao (Spain), has been manufacturing and marketing a range of head products, mainly respiratory and eye protection products, for the Spanish market and some export markets, for over twenty years.

As announced on the occasion of the publication of its consolidated turnover for 2018 on 12 February, Delta Plus Group had initiated the sale of this business a few months ago, considered as non-strategic for the Group given the strengthening of Delta Plus Group in this head protection market segment in recent years, both via organic growth and external growth.

As negotiations had already begun in 2018 with the buyer, the Group decided to reclassify this business as a business intended for sale in its consolidated financial statements on 31 December 2018. The contribution of this subsidiary to consolidated turnover in 2018 (€ 2.9 million) is therefore excluded from the consolidated turnover published in this press release.

Next publication: Turnover 2nd half of 2019
Tuesday 23 July 2019, after trading
